

Pace of play solution

Serious slow play solution

Your **actual** starting time will be noted by the pro-shop on our tee sheet. There is now a time clock located on a chair under the big TV. At the turn, slide your scorecard into the clock per the directions posted at the time clock. At the conclusion of the round repeat the process.

Any group that clocks in more than 15 behind the group ahead of them at the turn will be assessed a 1 stroke penalty.

At the end of 18 holes any group that clocks in more than 15 behind the group ahead of them will be assessed an additional 1 stroke penalty.

If the group is penalized at the turn but gets back into position their penalty will be revoked.

Those who, over time, consistently prove to be slow players will only be given the latest tee times.

The first group of the day must maintain a time of 2 hours & 15 minutes or better per nine to avoid penalty strokes. That time will be the reference basis for all penalties.
